

You can be up and punching in 10 minutes. All you have to do when you receive the machine is to verify that the time is correct and your employees can start punching.

The machine is shipped with 50 generic employees pre-loaded, starting with ID 101 (name is EMPLOYEE 101). You have the option of changing the generic name (e.g.ID 101=EMPLOYEE 101) to a real name (ID 101=JACK), adding department numbers, start time, mag cards, and punch options
